

## Innovations in Glaucoma Surgery: A Protocol for Integrating Interventional Principles

The interventional glaucoma mindset is altering the approach to patient care, but how can surgeons incorporate the principles into practice? Christine M. Funke, MD, and I. Paul Singh, MD, discuss this in an episode of *Innovation Journal Club*.

## Personalizing Glaucoma Treatment With the Calibreye System

On *MIGS Unplugged*, Lautaro Vera, MD, sits down with Iqbal Ike K. Ahmed, MD, FRCSC, and Arsham Sheybani, MD, to share his experiences with the Calibreye System (Myra Vision), a titratable aqueous shunt with valve-controlled channels that can be reversibly and repeatedly opened or closed using an office-based laser. Dr. Vera explains how to decide when channels should be opened or closed depending on a patient's IOP and discusses how this procedure fits into glaucoma treatment paradigm.

### The Paul Glaucoma Implant

In this episode of *GT: The Podcast*, Chelvin Sng, BA, MA, MBBChir, MMed, MRCS(Ed), FRCS(Ed), FAMS, recaps her article, "The Paul Glaucoma Implant," which was featured in the November/December 2025 issue of *Glaucoma Today*. The Paul Glaucoma Implant (Advanced Ophthalmic Innovations) is a glaucoma drainage device designed to fulfill the unmet need for a tube shunt with greater efficacy but a lower risk of hypotony. Dr. Sng reviews device characteristics, surgical technique, postoperative management, and clinical data.

### Meeting Updates

#### AGS Annual Meeting 2026

February 19-22; Rancho Mirage, California

#### AECOS Winter Symposium

February 22-25; Aspen, Colorado

#### ASCRS Annual Meeting 2026

April 10-13; Washington, DC

#### ARVO Annual Meeting

May 3-7; Denver

#### YoungMD Connect Live 2026

May 15-17; Austin, Texas

#### 17th EGS Congress

May 30-June 2; Brussels

#### AECOS European Symposium

June 11-14; Madrid

#### AECOS Summer Symposium

July 9-12; Deer Valley, Utah

#### 44th Congress of the ESCRS

September 11-15; London

#### AAO 2026 Annual Meeting

October 9-12; New Orleans

#### Interventional Glaucoma Consortium 2026

November 13-15; Salt Lake City

#### IGC Fellows Program 2026

November 13-15; Salt Lake City
