

SEEN & HEARD

Optimizing Existing Tube Shunt in Uveitic Glaucoma

SCENE FROM THE OR

Glaucoma Case Files begins a new season, filmed at the John A. Moran Eye Center at the University of Utah. Hosts Rachel G. Simpson, MD, and Roya Garakani, DO, review the case of a patient with uveitic glaucoma and a history of tube shunt implantation who presented with elevated IOP. The patient was not tolerating any topical medications and was opposed to the placement of a second tube shunt. Dr. Simpson discusses her decision to optimize the patient's existing tube shunt through flushing with balanced salt solution.

Interventional Valve-Enhancing Trabeculotomy

On *MIGS Unplugged*, hosts Iqbal Ike K. Ahmed, MD, FRCSC, and Arsham Sheybani, MD, sit down with Davinder S. Grover, MD, MPH, to recap a presentation on interventional valve-enhancing trabeculotomy (IVENT) that he delivered at the AGS annual meeting. Dr. Grover details the mechanisms of action of this procedure and explains that it could offer a less invasive tissue-sparing alternative to traditional goniotomy.

Survey Says: Proceeding After Unsuccessful Treatment

On this episode of "Survey Says," a special edition of *GT: The Podcast*, host I. Paul Singh, MD, is joined by Manjool Shah, MD, and Ticiana De Francesco, MD, to review a real case from Dr. Singh's practice. They discuss the patient's treatment history and how it informs which procedures to consider for the future and which ones to rule out. The guests share how they would proceed before finding out what Dr. Singh did and how their colleagues would approach the case, based on results of a social media poll of *GT's* audience.

Meeting Updates

ARVO Annual Meeting
May 4-8
Salt Lake City

European Society of Ophthalmology Congress
June 7-9
Lisbon, Portugal

11th World Glaucoma Congress
June 25-28
Honolulu

VISION 2025
September 8-12
Florence, Italy

43rd Congress of the ESCRS
September 12-16
Copenhagen

AAO Annual Meeting
October 17-20
Orlando

Interventional Glaucoma Consortium 2025
November 7-9
Salt Lake City

IGC Fellows Program
November 7-9
Salt Lake City
