

UPDATES FROM THE ASCRS ANNUAL MEETING

Glaucoma specialists share key takeaways from their presentations.

PRACTICAL TIPS FOR WINNING WITH DRUG DELIVERY

Erin Sieck, MD

When I look at patients [who are candidates for sustained drug delivery], the one thing that I want to make sure that they have is a deep anterior chamber.”

MIGS: LOOKING FORWARD

Rachel G. Simpson, MD

These are all really exciting tools that we're going to hopefully be able to use to treat our patients in the coming years.”

THE ROLE OF MEDICATIONS IN THE INTERVENTIONAL GLAUCOMA ERA

Jason Bacharach, MD

Drops aren't going to go away. You can still have that [interventional glaucoma] mindset and be a forward-thinking doctor but be ... thoughtful about where and how you use drops.”
