Asks...

What is your favorite aspect of practicing retina?

Delivering new breakthrough therapies to my patients for what in the past were blinding retinal conditions. The other upside to this is that I get to provide long-term continuity of care, which results in great patient-physician relationships.

— Elias Reichel, MD

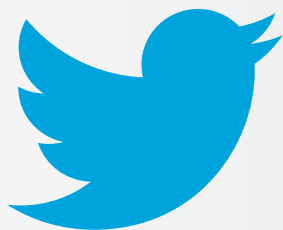

In each edition of @RetinaToday, the editorial team of Retina Today asks an editorial advisory board member or other expert in the field a question.

NOW PLAYING ON

Jean-Pierre Hubschman, MD, speaks with Retina Today Journal Club Co-Host Richard S. Kaiser, MD, about robot-assisted surgery in retina. Dr. Hubschman shares his experience using the technology in the anterior space and talks about the challenges of implementing robotics in vitreoretinal surgery. The two physicians discuss how robot-assisted surgery can enhance a surgeon's ability to perform complex surgical procedures.
